

The Jobs People Do

Ada, Beth, Christine, and Denise each have a different job (model for mascara ads, plumber, radio announcer, and gardener). In every case except Denise's, (who is allergic to flowers), something happened early this morning that made it impossible for each woman to do her job today. Read the clues to find each woman's job.

1. Ada pulled a muscle in her left leg.
2. Beth came down with laryngitis.
3. Christine bumped into a door and got a black eye.
